

Transfer Trailer Lock-Down Tarp Systems:

Roll·Rite® STS Series

with One-Touch Technology

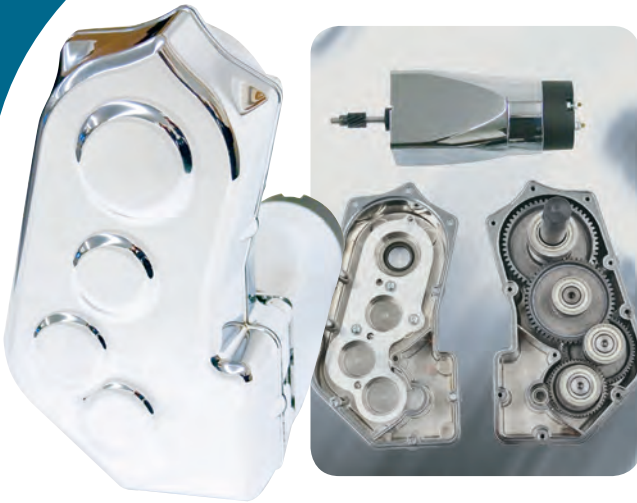

Automated Covering Systems

Roll•Rite®

TarpStretcher® Motor:

The TarpStretcher® is designed exclusively for roll tarping. Standard on our patented knuckle arm power kits, the TarpStretcher® features our patented brake technology.

- **Engineered...** for high torque tarping demands of side roll tarping
- **High-Polished...** Chrome-plated casing, designed for virtually corrosion-proof protection, adds a distinctive profile to your truck for a professional appearance
- **5-year Warranty...** Industry's only non-prorated warranty against premature wearout. The TarpStretcher® gear motor is warranted for a period of 5-years

Rite•Lock™ Technology:

Our Rite-Lock power kit arms consist of a specially treated, high strength extruded aluminum alloy. Combined with our patented knuckle pivot technology, the Rite-Lock power kit arm provides smooth, compact operation for side tarping. Standard mounting bracket and one-touch wireless controls (facing page) included.

- **Patented Knuckle Pivot...** allows axle to climb heaped load and keeps constant tension on tarp for maximum control in wind conditions
- **Low-Profile Arm ...** keeps tarp operation within inches of your trailer top, reducing overhead hazards
- **Lock-Down Coverage...** offers maximum load protection and containment
- **Single Arm Power Kits...** can be operated with standard rear bungee assisted return or with our innovative spring-powered rear tarp return featured below.
- **Dual Arm Power Kits...** feature our front power kit arm and our patented MultiFlex™ rear arm with multi-directional arm flexibility for full operation of tailgates (facing page).

Rite•Touch™ Remote Control

Single Function Wireless with One-Touch Technology

Rite-Touch Remote Control with wireless one-touch technology is standard equipment. One-touch allows you to open or close your side tarp system automatically, with ability to touch again to stop or start if needed. Safely and efficiently operate automated the one-touch feature from either the comfort of your cab or from a 360° walk-around position. Weather resistant control box features sealed membrane push buttons for backup manual operation.

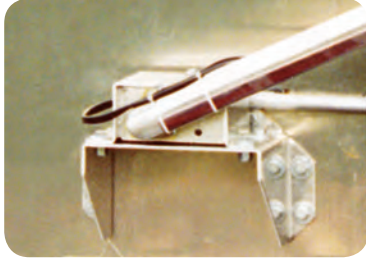

- **Easy Install...** Snaps on in minutes
- **Eliminates...** in cab switch

New!
Industry's 1ST
One Touch Tarp
Technology
(pat. pending)

STS Series

Mounting Styles:

- **Standard Trailer...** mounting bracket included for mounting power kit to trailers

- **Vertical Rib...** mounting bracket option

Axle Kit:

- **Axle Kit without Ridge Pole...**
Most common axle kit for Transfer Trailer applications - 3" diameter gives axle stiffness needed for smooth, even operation
* 2" Steel Axle Kit also available

MultiFlex™ Rear Arm

For Trailers Up to 53'

Roll-Rite® offers an enhanced dual arm STS system variation combining our patented knuckle-pivot technology (Rite-Lock™ front arm) with our patented MultiFlex™ rear arm.

Multi-Flex™ benefits include:

- **"Multi" Directional Rear Arm Flexibility...** allows full operation of all tailgates including standard dump, high lift, barn door and split gates
- **Heavy Duty Rear Arm Cable Design...** unaffected by cold and will not dry rot like other products on the market
- **Designed for Easy Retrofits...** attaches to existing 2" roll pipe via a thick wall polymer bushing that virtually eliminates wear issues
- **Bushing Mounted...** external style pivot with bushings eliminates metal on metal contact

Tarp Return:

The Roll-Rite® rear tarp return is for single-arm side roll tarp applications. Our return is the industry's first patented spiral torsion spring powered return. It features a self-contained, chrome finished rotary unit which powers a heavy duty 1-inch webbed strap for improved weather resistance.

- **Improved Tarp Return Action...** with over 3-times the pull back force of average bungee returns
- **Longer Life...** than average bungee returns
- **Improved Weather Resistance...** unlike bungee returns, the Roll-Rite® Tarp Return is unaffected by cold
- **Retrofit...** easily replace existing bungee, cable or spring returns

Arm Assemblies: Rite-Lock™ Power Kits

38100	Rite-Lock Kit, Passenger Stowing w/One Top Mount Pivot - 12V TS
-------	---

MultiFlex™ Rear Arm Return:

46505	Pivot, Assembled 5-Spring 2" Axle Rear Flex Arm
-------	---

46506	Pivot, Assembled 5-Spring 3" Axle Rear Flex Arm
